What Is Duffy's Pure Malt Whiskey?

It is an absolutely pure distillation of malted grain, great care being used to have every kernel thoroughly malted, thus destroying the germ and producing a predigested liquid food in the form of a medicinal whisky; softened by warmth and moisture, its palatability and freedom from injurious substances render it so that it can be retained by the most sensitive stomach.

It is a gentle, invigorating stimulant and tonic.

What Does It Do?

It builds up the nerve tissues, tones up the heart, gives power to the brain, strength and elasticity to the muscles and richness to the blood. It brings into action all the vital forces; it makes digestion perfect and enables you to get from the food you eat all the nourishment it contains.

It is invaluable for overworked men, delicate women and sickly children. It strengthens and sustains the system, is a promoter of good health and longevity, makes the old young and keeps the young strong.

It cures nervousness, typhoid, malaria, every form of stomach trouble, diseases of the throat and lungs, and is recognized as a medicine by doctors of all schools.

Thousands of letters have been received from men and women in all walks of life, many from those nearly 100 years old, extolling the virtues of Duffy's Pure Malt Whiskey as the world's greatest medicine.

BEWARE of imitations and substitutes. They are positively harmful and are sold for profit only by unscrupulous dealers. Look for the trademark, the "Old Chemist," on the label, and be certain the seal over the cork is unbroken.
